PARTNER WITH US

As the wheels of revolution turn for electric automobiles, increasing market presence in that sector of development is soon going to at the top of the priority list. The advent of an entire industry is about to start. Don't be left out. Stier Racing can maximize your visibility by making you a partner. And what better way to do it than from the top of the podium?

AN OVERVIEW

WHO ARE WE?

Stier Racing is an Formula Student Electric team from Ramaiah Institute of Technology, Bangalore, taking part in the largest automotive competition for students in the country, Formula Bharat.

WHAT DO WE DO?

5 years of being in production, Stier Racing participates in the electric racing segment of Formula Bharat and Formula Green. Formula Bharat is a competition with national prowess and sees some international teams as well. The competition sponsors and judges are part of industry-leading companies. Formula Green is an event dedicated to nurturing young talent solely in the field of Electric Racing. Both these platforms are extremely instrumental in talent acquisition as well as improving company visibility.

OUR TEAM

Our team comprises of exuberant, zealous and passionate engineering students from various departments, creating an inclusive and cohesive environment that facilitates learning and provides hands-on experience.
